Upcoming Program for November

November 18th – A presentation of the Hoffman Dovetail Joinery Machine will be given at the November 18th meeting. This presentation has been reviewed with the management of The Woodworking Shop, and does not present a conflict of interest. Please come to the meeting and enjoy the demonstration of a rather remarkable piece of machinery.

Meeting Time

Meetings of the Charlotte Woodworker's Association are held the third Monday of each month, except for December. Meetings are typically held at THE WOODWORKING SHOP of Charlotte, 116M Freeland Lane, Charlotte, NC. Exceptions will be announced well in advance. If you need directions to the shop, visit their web site at <http://orders.woodworkingshop.com> and click on the link to "Store Locations".

Please note that our meetings start at 6:00 P.M., after a social and refreshment time that starts at 5:30 P.M. If you get there early, you can get to know your fellow members. One Special Christmas

Dwight Hartsell addressed our group at the October meeting regarding the "One Special Christmas" program. If you have anything to donate to "One Special Christmas" please bring it to the Charlotte Woodworkers Association meeting on November 18, 2002. Dwight will collect the items there.

Don Chapman's Address

Don Chapman is in the state of Washington being treated for Leukemia and having a bone marrow transplant. You may remember Don as the man who helped build the log houses for "One Special Christmas". You may remember Don because you met him at one of our meetings, which he often attended. In any case, if you'd like to send a card or letter to Don, here's his address:

Viktor Ilnitskiy Displays Woodworking Projects

Viktor Ilnitskiy presented members of CWA with a view of a number of his recent projects at the October meeting. He gave a little background on each project and then answered questions on how they were made. He also answered questions from the audience about woodworking in his native country, the Ukraine. Below are a few pictures from Viktor's presentation.

Viktor is a woodcarver by profession, if I understood correctly. He had a great sense of humor. And while he didn't demonstrate HOW to do any particular woodworking task it was clear that he enjoyed woodworking.
